Dear Dr Lederberg,

You once asked me whether I had available a copy of my old M.R.C. report "Bacterial Nutrition" (1936). We met at a sherry party at the CIBA Foundation on the occasion of a Soc. gen. Microbiol. Symposium in 1960, I think it was. Since then I have found a copy of the report amongst the effects of a deceased colleague of mine. It is in rather a battered condition, but I have had it bound and I think it will serve your collector's purpose. I have taken the liberty of having bound in with it a copy of the Harvey lecture I gave in 1947, since I think it suggests a little how far things had moved in the ten intervening years. I am sending the book separately by surface mail to your Stanford address.

With kind regards,

Yours sincerely,

B.C.J.G. Knight

This will be very much appreciated.

With sincere thanks

Joshua Lederberg.

B.C.J.G. Knight
